A. School Champ Programs

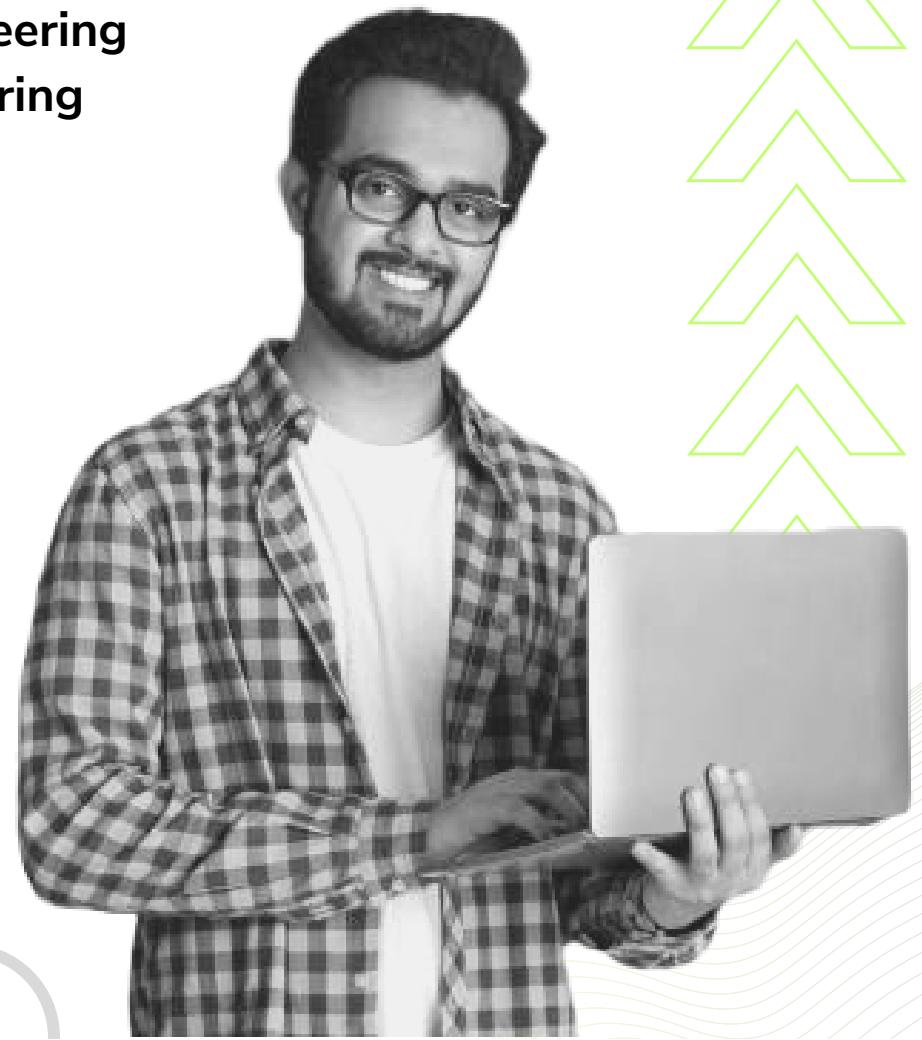

1. Basic Coding Champions
2. Advance Coding Champions

B. Coding Bees Program

1. Full Stack Data Analytics
2. Full Stack Web Development

C. Engineering Nerd Program

1. Mechanical Engineering
2. Electrical Engineering

Coding Bees Curriculum

Full Stack Data Analytics

- Deep-dive with Coding Mathematics
- Code with Analytical Excel
- World of Python Programming & EDA
- Advance Mathematical Computing
- Artificial Intelligence & Machine learning
- Data Visualization with Tableau / Power BI
- Business Scenario Case Studies
- Science of Analytical Guesstimates

Full Stack Web Development

1. Introduction To Programming

- Variables, Data Types, Input & Output
- Conditional Statements
- Loops
- Operators
- Functions

2. Deep-dive with DSA

- Arrays and 2D Arrays
- Sorting and Searching
- Time Complexity and String

3. Become Frontend Developer

- HTML, CSS, Bootstrap
- Figma
- Git & GitHub
- Basic & Advance JS
- DOM & BOM
- OOP'S & Storage
- React JS

4. Become Backend Developer

- NPM & CRUD Operations
- Express JS & REST API'S
- Mongo DB

Coding Bees Program

Full Stack Data Analytics

Full stack data analytics is a field that involves working with all aspects of data processing and analysis, from collecting and storing data to analyzing it and presenting it in a way that is easy to understand. In Our Course Students will learn programming languages such as Python and R, as well as data storage technologies like SQL and NoSQL databases.

Full Stack Web Development

If you're interested in becoming a full stack web developer, you'll need to learn a wide range of technologies and programming languages, including HTML, CSS, JavaScript, Node.js, React, and more.

Our course in full stack web development is designed to provide you with all the necessary skills and knowledge to become a successful full stack developer. You'll learn from experienced instructors who will guide you through each step of the development process.
